Service Focus Areas

Overview

QCOSS will maintain a register of Service Providers and Consultants that provide services or consult direct to community sector organisations, which will be published on the QCOSS website. The register is not designed for advertising of services that organisations might provide directly to individual clients (as opposed to organisations). Permission to advertise on the register is subject to the approval of the Director and compliance by the service provider or consultant with the relevant policy. More information is available by downloading the QCOSS Advertising Sponsorship and Endorsement policy on the QCOSS Website..

The register also provides the opportunity for QCOSS members to register their availability to provide professional supervision.

Sole trader consultants wishing to register must be individual members of QCOSS.

Companies, partnerships or incorporated associations wishing to register must be organisational or associate members of QCOSS as appropriate.
